

Your recreation property at Cottage Cove is a four-season delight. Skiing, snowboarding, snowmobiling, snow shoeing, skating and downhill snow tubing are just some of the activities you can enjoy in the winter. During the summer, explore the entire park floating on the Shell River or boating on the Lake of the Prairies, you will also have access to the marina just below the development.

This is where the good times are, making memories for you, your children, and your grandchildren. Community is important to us, and you will find plenty of activities that will allow you to meet your neighbours.

Start Living Your dream!
